

DUTY 13 - KITCHEN - AREA 2: CENTRE AREA OF KITCHEN

COVID DUTY:

Twice Daily (Morning and Afternoon):

- disinfect high touch in area 2 using bleach mix – taps, containers, brushes, switches etc
- disinfect high touch in area 2 using bleach mix – cook top controls
- record completion in the high touch point disinfection log in dining room (AM and PM)

On leaving:

- wipe down your bed underlay(s) with an IPA WIPE. *Do not use bleach.*

Daily

NOTE: Oven has self-cleaning function that needs to be switched on immediately after breakfast and then wiped out 3 hours later.

Members to be reminded to clean up own mess.

Clean bench tops with Spray and Wipe.

Clean both round bench sinks with basin Spray and Wipe, scrub with Jex pads to remove any staining

Clean splash back with Spray and Wipe

Clean cook top with scraper and Ceratop cleaner to remove all traces of grease.

Clean top oven at Southern Cross end at end of period.

- Remove and clean racks. These are replaced after the self-cleaning function is completed.
- Turn the oven "Function" selector clockwise to select the "Pyro" position.
- Use the "+" or "-" **buttons** on the electronic clock (not the temperature +/- lever) to select between a pyrolytic cleaning time of P1-1:30 hours (light clean) or P2-2:30 hours (normal clean) for the appropriate level of cleaning.
- After 5 seconds from the last change, the oven will begin heating and the "Remaining time" will be displayed.
- The pyrolytic cleaning function can be stopped at any time during the cycle by turning the function selector counter-clockwise to the "OFF" position.
- NOTE: The "Remaining time" does not include cool-down time for the oven.
- Oven will automatically switch off and cool when clean – approximately 3 hrs.
- Return function selector to off position.
- When cool, wipe out with wetex/chux/paper towel and replace racks
